<b>Office Action Summary</b>	<b>Application No.</b> 10/849,742	<b>Applicant(s)</b> CHEN ET AL.	
	<b>Examiner</b> Carlos A. Azpuru	<b>Art Unit</b> 1615	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 09 June 2008.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Election/Restrictions***

Applicant's election with traverse of Group I in the reply filed on 06/09/2008 is acknowledged. The traversal is on the ground(s) that All claims can be searched without any burden on this office. This is not found persuasive because the method of providing includes coating processes which belong in classes 427 and 428. This search is not required for Group I.

The requirement is still deemed proper and is therefore made FINAL.

Claims 31-52 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 06/09/2008.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 15, 17 and 27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 15 refers to a "freestanding" multilayer region. Is applicant claiming a coating without the medical device? Clarification is requested as this would constitute an improper further limiting of the invention from claim 1.

Similarly, claim 17 refers to a temporary structure which is not implanted. As above, clarification is requested and for the same reasons.

Clarification is requested as to what constitutes a "residue from a removable substrate adjacent to said multilayer region". This could not be found in the specification.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9, 13-24 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 01/78906 (Spillman).

Spillman discloses an alternating thin film of alternating charge. Further, nanoclusters of  $ZrO_2$ ,  $Al_2O_3$  or  $TiO_2$  are also disclosed. This film may be used to coat catheters, stents and similar medical devices (see Abstract). Charged polymers are found at page 5 lines 1-11 and include fullerenes. Ceramic particles disclosed at page 8, lines 12-13. Alternative layering is disclosed at pages 9-10. Nanoclusters are disclosed at page 12, lines 19-29. The size of the layers is disclosed as between about 0.1 to 100 nm (page 13, lines 12-15). The instant claims are anticipated by Spillman.

Claims 10-12 and 25-30 are objected to as dependent upon a rejected base claim.

It is noted that the prior art does not teach incorporation of bioactives into its coating. Amendment of the independent claims to include this limitation would overcome the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos A. Azpuru whose telephone number is (571) 272-0588. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on (571) 272-8373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
